Profile

Interaction and UX/UI Designer with 2 years of industry experience designing web and mobile products, supported by an MSc in Design Innovation from Maynooth University applying service design and human-centred design to real-world briefs. Experienced across the end-to-end design process, from user research and synthesis of research findings through user flows, information architecture, wireframes and interactive prototypes to high-fidelity UI design in Figma. Strong at explaining design decisions with user insights and working with developers and stakeholders in multidisciplinary teams to turn complex user and business needs into clear, accessible experiences.

Technical Skills

Tools: Figma, Adobe Photoshop, Adobe Illustrator, Adobe XD
Design: Interaction Design, User Flows, Wireframing, Prototyping, Information Architecture, UI Design, User-Centered Design, User Research, Usability Testing, User Journeys, Responsive Design, User Interviews
Design Systems: Components, Variants, Auto Layout, Reusable Patterns, Responsive Components
Research & Analysis: Research Synthesis, Qualitative Research, Thematic Analysis, Surveys

Work Experience

Associate UI/UX Designer Jul 2023 – Aug 2025
Mewurk Technologies *Bengaluru, India*

- Supported the end-to-end design process across assigned modules, from discovery to detailed design, creating user flows, wireframes, interactive prototypes and development-ready high-fidelity interfaces in Figma.
- Conducted interviews and usability testing with HR administrators, managers and employees, synthesizing research findings into insights, interface decisions and actionable UX improvements.
- Designed and shipped responsive web and mobile experiences for core HRMS products including Task Management, Timesheet, Leave and Attendance, translating user and business requirements into intuitive digital workflows.
- Collaborated with product stakeholders and developers in multidisciplinary teams to refine requirements, explain design decisions, validate feasibility and support implementation across desktop and mobile.
- Worked within existing product patterns and reusable components to keep the HRMS platform consistent while exploring new interaction patterns and better workflows.
- Designed a Partner Portal from the ground up for Sales and Customer personas, creating dashboards and workflows for leads, partners and customers while iterating designs based on stakeholder feedback.

UI/UX Designer Intern Aug 2021 – Dec 2021
Tatos Technologies *Kerala, India*

- Delivered the full UX process for an education-sector CRM aimed at schools - research, user flows, wireframes, and high-fidelity prototypes.
- Conducted user research for a news application and packaged the findings into a documented case study that guided design decisions.
- Produced marketing posters and graphics that supported the company's branding and campaign outreach.

Projects

The Kept Promise | *MSc Dissertation · Service Design & UX Research*

- Conducted six stakeholder interviews and thematic analysis to identify service breakdowns behind blood-donor drop-off, translating research insights into an end-to-end digital service concept using service design methods.
- Designed, built and tested "The Callback," a working web application, iterating the experience based on real-world coordinator feedback and usability findings.
- A service tackling blood-donor drop-off in student-run donation drives - why first-time donors never return, and how to bring them back.

Spot-to-Plot | *Community Service Design* Liberties, Dublin

- Designed a coordination tool helping Liberties residents turn neglected corners into community-owned green spaces - pin a micro-plot, gather ideas, rally student volunteers.

- Rebuilt it from a polished app into a lighter, grassroots-friendly layer after resident testing, so it works with how the community already organizes.

Lullymore Heritage Park | *Interactive Family Map* Lullymore, Kildare

- Designed a mobile app turning a sprawling heritage park into a guided, playful journey for families, taken from visitor research through to an interactive prototype.

Education

Maynooth University Ireland
MSc Design Innovation *Sep 2025 – Oct 2026*

APJ Abdul Kalam Technological University Trivandrum, India
Bachelor of Technology in Computer Science and Engineering *Jul 2019 – Jun 2023*

- Institution: Model Engineering College, Kochi
- GPA: 7.7/10.00 (First Class with Distinction)

Leadership and Community

- **Design & Community:** Event Management Volunteer, Design Brew
- **Achievement:** 2nd Place, Code Innovation Series Hackathon, GitHub × IncubateIND
- **Leadership:** Chief Design Officer, IEDC MEC · Design Head, College Magazine · Millennium Campus Fellow
