Profile

Product and UX/UI Designer with 2 years of in-house industry experience designing internal business platforms, including HRMS modules for HR administrators and managers and a Partner Portal with dashboards and workflows, supported by an MSc in Design Innovation from Maynooth University and a Bachelor of Technology in Computer Science. Experienced in turning business requirements into clear, structured workflows, mapping end-to-end user flows, and designing with reusable UI patterns and high-fidelity interfaces in Figma. Works closely with product stakeholders and developers, keeping design feasibility and the needs of everyday operational users in view.

Technical Skills

Tools: Figma, Adobe Photoshop, Adobe Illustrator, Adobe XD
Design: User Flows, Interaction Design, UI Design, Information Architecture, Wireframing, Prototyping, Responsive Design, User Research, Usability Testing, User Interviews, User Journeys, User-Centered Design
Design Systems: Components, Reusable Patterns, Variants, Auto Layout, Responsive Components
Research & Analysis: Surveys, Qualitative Research, Thematic Analysis, Research Synthesis, Basic Data Analytics

Work Experience

Associate UI/UX Designer Jul 2023 – Aug 2025
Mewurk Technologies *Bengaluru, India*

- Designed a Partner Portal from the ground up for Sales and Customer personas, creating dashboards and workflows for managing leads, partners and customers, iterating designs based on stakeholder feedback.
- Designed and shipped responsive web and mobile experiences for core HRMS platform modules including Task Management, Timesheet, Leave and Attendance, turning user and business requirements into clear, structured workflows.
- Owned the end-to-end UX process across assigned modules, mapping end-to-end user flows, then creating wireframes, interactive prototypes and development-ready high-fidelity interfaces in Figma.
- Built on reusable components and established product patterns to keep the HRMS platform consistent and scalable, while redesigning workflows and interaction patterns to cut friction.
- Partnered with product stakeholders and developers to refine requirements, validate design feasibility and technical constraints and support implementation across desktop and mobile.
- Conducted interviews and usability testing with HR administrators, managers and employees to understand how operational users work, turning findings into actionable UX improvements.

UI/UX Designer Intern Aug 2021 – Dec 2021
Tatos Technologies *Kerala, India*

- Delivered the full UX process for an education-sector CRM aimed at schools - research, user flows, wireframes, and high-fidelity prototypes.
- Conducted user research for a news application and packaged the findings into a documented case study that guided design decisions.
- Produced marketing posters and graphics that supported the company's branding and campaign outreach.

Projects

The Kept Promise | *MSc Dissertation · Service Design & UX Research*

- A service tackling blood-donor drop-off in student-run donation drives - why first-time donors never return, and how to bring them back.
- Conducted six stakeholder interviews and thematic analysis to identify service breakdowns contributing to blood-donor drop-off, translating research insights into an end-to-end digital service concept.
- Designed, built and tested "The Callback," a working web application, iterating the experience based on real-world coordinator feedback and usability findings.

Spot-to-Plot | *Community Service Design* Liberties, Dublin

- Designed a coordination tool helping Liberties residents turn neglected corners into community-owned green spaces - pin a micro-plot, gather ideas, rally student volunteers.

- Rebuilt it from a polished app into a lighter, grassroots-friendly layer after resident testing, so it works with how the community already organizes.

Lullymore Heritage Park | *Interactive Family Map* Lullymore, Kildare

- Designed a mobile app turning a sprawling heritage park into a guided, playful journey for families, taken from visitor research through to an interactive prototype.

Education

Maynooth University Ireland
MSc Design Innovation *Sep 2025 – Oct 2026*

APJ Abdul Kalam Technological University Trivandrum, India
Bachelor of Technology in Computer Science and Engineering *Jul 2019 – Jun 2023*

- Institution: Model Engineering College, Kochi
- GPA: 7.7/10.00 (First Class with Distinction)

Leadership and Community

- **Design & Community:** Event Management Volunteer, Design Brew
- **Achievement:** 2nd Place, Code Innovation Series Hackathon, GitHub × IncubateIND
- **Leadership:** Chief Design Officer, IEDC MEC · Design Head, College Magazine · Millennium Campus Fellow
